Dear Friends,

On behalf of the children we care for, I would like to extend our deep appreciation for your generous donation to Shriners Hospital for Children - Canada special project, 3D Printer. You are part of a unique group who share the belief that every child deserves a chance to realize their dreams.

Your donation is an expression of your caring spirit and represents an investment in the future of our hospital and our children. Thanks to your generosity, we will be able to take our world-class patient care, research and teaching to new heights of excellence. Your gift will also help us continue our pursuit of advancing complex orthopaedic care and bettering the lives of our young patients, as well as help alleviate the impediments that may stand in the way of their ability to achieve their full potential.

Once again, thank you for this demonstration of generosity and compassion and helping us to give exceptional care to exceptional kids for generations to come.

Sincerely,

Bill Miller
Chairman, Board of Governors
